François Bugnion

Towards a comprehensive solution  
to the question of the emblem

Revised second edition

From the  
**INTERNATIONAL  
REVIEW**  
OF THE RED CROSS

## **Towards a comprehensive solution to the question of the emblem**

**Revised second edition**

*by François Bugnion*

Since they were adopted, the red cross and red crescent emblems have provided protection to millions of war victims but they have also given rise to repeated difficulties and virtually continuous debate. This article

outlines the history and assesses the prospects for resolving an issue of concern to the States party to the 1949 Geneva Conventions. The author relates the debate over the years as far as May 2003.
